

HARI BHAMBHANI

ASPIRING SOFTWARE ENGINEER

☎ +91 9320474520

✉ haribhambhani24@gmail.com

EDUCATION

VIVEKANAND EDUCATION SOCIETY'S INSTITUTE OF TECHNOLOGY (VESIT), CHEMBUR, MUMBAI

BTech, Computer Engineering
(2025-2029) CGPA- 7.84 (Till sem2)

CHANDIBAI HIMATHMAL MANSUKHANI COLLEGE (CHM), ULHASNAGAR

HSC - Science Stream

GURU NANAK ENGLISH HIGH SCHOOL (GNEHS), KALYAN

SSC , Secondary, Primary &
Pre-Primary

TECHNICAL SKILLS

- Java
- Data Structures &
Algorithms(Linear Data
Structures)
- SQL (Basics)
- Git & Github
- HTML(Started recently)

CERTIFICATIONS

HACK-AI-THON 4.0 -CERTIFICATE OF ACHIEVEMENT

Completed the 24-hour online
Hack-AI-Thon 4.0 conducted by
AI-CoLegion, the Artificial Intelligence
& Data Science department committee,
VESIT.

SYRUS HACKATHON 0.6 -CERTIFICATE OF PARTICIPATION

Participated in an Industry Sponsored
Hackathon conducted by CodeCell++, the
Department of Computer Engineering,
VESIT.

ABOUT ME

I am a motivated engineering student taking my initial steps into the world of software engineering. As a beginner, my primary focus is establishing strong fundamentals rather than rushing into complex abstractions. I have started by developing my skills in Java, data structures, and SQL, while practicing version control fundamentals with Git.

I enjoy tackling new challenges head-on which led me to dive into events like Hack-AI-Thon 4.0 and the SYRUS Hackathon early in my college journey. Those sprints taught me how to learn quickly, troubleshoot under constraints, and contribute effectively within a team.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

Developed and deployed a clean personal portfolio website to display engineering projects and achievements.

Generated the core site layout and components using AI-assisted development tools to explore how modern front-end web pages are structured.

Applied basic HTML, edited CSS styling rules, and tweaked page elements to customize colors, text alignment, and section layouts.

Published the repository to GitHub to practice basic version control and online deployment.
